### 4 Choose the correct answer: a, b or c.

<sup>0</sup> \_\_\_ a lot of energy wasted in your house? Our house <sup>1</sup> \_\_\_ built in the 1980s so it isn't very energy efficient. One reason for that is because solar energy <sup>2</sup> \_\_\_ much in those days. The walls <sup>3</sup> \_\_\_ made of bricks and cement but they're not very thick. Today a lot of houses are designed <sup>4</sup> \_\_\_ architects who specialise in green technology. You can even buy a house that is completely made <sup>5</sup> \_\_\_ recycled materials.

### 7 Choose the correct answer: a, b or c.

How can you and your family help the environment? One thing you can do is to <sup>0</sup> \_\_\_ off any appliances you're not using. If you leave them <sup>1</sup> \_\_\_ standby, you'll use quite a lot of energy that you don't need. And if you want to <sup>2</sup> \_\_\_ energy in the home, try wearing more clothes indoors when it's very cold outside. You'll need less <sup>3</sup> \_\_\_ in your house that way. Unfortunately, many homes that are made of bricks and <sup>4</sup> \_\_\_ aren't very energy efficient – but even though that's a difficult thing to change, you can still do small things that will make a difference. How about trying to <sup>5</sup> \_\_\_ the amount of rubbish and food you put in the waste bin? That would be a really important change!

- |             |                 |               |

|  | 5 |
|--|---|

### 8 Complete the text with the words in the box.

put up throw away ~~find out~~ knock down cut down keep on

We probably all need to <sup>0</sup> find out more about how to help the environment. For example, my mum is trying to reduce the amount of food rubbish we <sup>1</sup> \_\_\_\_\_, like paper and plastic, by buying products that don't have lots of wrapping on them. But it's hard to <sup>2</sup> \_\_\_\_\_ doing it because she's so busy. And sometimes trees are <sup>3</sup> \_\_\_\_\_ because we need more houses and more roads. But when my grandad needed a new home, he tried not to do that. Instead, he decided to <sup>4</sup> \_\_\_\_\_ his old house, which was always really cold in winter. And he <sup>5</sup> \_\_\_\_\_ a new, more energy-efficient one. It was expensive – but now he's saving lots of money!

## Reading

### 11 Read this online forum with tips on ecological living.

|   |  |
|---|--|
| 0  | I live out in the country with my family, and we all try to use our bicycles or go on public transport instead of getting in the car. People ask us how we manage, but it's not too bad. In fact, Dad says he wants to sell the car next year and not have one at all.   |
| 1  | We don't buy any plastic bottles because we don't drink bottled water or fizzy drinks but we ask all our friends to give us their bottles instead of taking them to be recycled at the bottle bank. We cut the tops and bottoms off and use them in the garden. They're great for protecting small plants when you first put them in the ground because the animals can't get to them. |
| 2  | We live in a village and there are lots of forests around us so we're very lucky because we can go out and look for bits of wood and branches that have blown down. We would never cut wood but if it's on the ground, then we pick it up and bring it home and we burn it in our wood burner which keeps the house nice and warm.   |
| 3  | We went on a course last year which was all about living off the land. It's amazing how much stuff there is to eat out there if you know what you're looking for. The obvious things are mushrooms and berries, like blackberries, but there are also a lot of wild plants which you can use. Not many people know about them so there is plenty there.                                |
| 4  | We are vegetarians so we don't eat meat but we do keep chickens for their eggs and we feed them with our leftover food. Basically, we don't throw anything away but we give it to the chickens. The only stuff we put in the rubbish is stuff that we can't recycle.   |
| 5  | There are a couple of things that help us to save both money and resources. We use the washing machine at night when electricity is cheaper and we have showers not baths as showers use much less water. We also recycle 'grey' water in the garden.  |

Match each person (1–5) with what they say (a–f).

| People    |          | What they say                                  |
|-----------|----------|--|
| 0 David   | <u>d</u> | a We don't have any waste food.                |
| 1 Alice   | ___      | b We've learnt about finding free food.        |
| 2 James   | ___      | c We're inventive with our recycling.          |
| 3 Stephen | ___      | d Living without a car won't be a problem.     |
| 4 Julia   | ___      | e We heat the home for free.                   |
| 5 Peter   | ___      | f We're careful not to waste energy and water. |
