Outcomes

Upper Intermediate – Dictation

Units 13–16

Dictation is a great way to practise language (vocabulary and grammar) and skills (listening and writing) in one activity. It's challenging and really tests your ability to listen and understand the main information.

You are going to hear a short extract from one of the tracks you listened to in Units 13–16. You will hear it only once.

A Work in your groups. Listen and take notes on what you hear. You won't have time to write everything.

B Work together to write the whole text.

C Compare what you have written with part 4 of track 80 on page 211.
